

Mark Rodriguez

I'm currently redesigning the website of LPD Engineering, a civil engineering and design firm based in Seattle, WA. Anticipated launch May 2011.

Design Experience

dho+designs Photography Portfolio

Web Producer and co-creative lead on a three-person project team. The final site was built on WordPress with Flickr mini-plugin to remotely access public and customizable private galleries.

Kaskade E-Commerce Protosite

Designed and developed this Pacific Northwest inspired E-commerce protosite showcasing 25 snowboarding related retail products. XHTML 1.0 Transitional, PHP includes.

Lawson Construction

Developed and designed all branding and written content for this Seattle-based and nationally certified sustainable construction contractor. XHTML 1.0 Transitional, PHP includes.

Jamie Larson Photography

My first self-built project. My first project. Great content from this Portland, Oregon-based artist allowed me to stay out of the way. Tables-based and hand coded with a little CSS applied.

Group Four, Inc.

Client side project manager for rebranding of this Seattle area civil engineering, land-use planning and biological sciences consulting firm. Project included complete redesign of company web site, as well as revamping of all print collateral.
